Summary

Data-focused IT professional skilled in **ETL development, Azure Data Factory, Power BI, and SQL Server**. Experienced in building **scalable data pipelines**, ensuring **data quality**, and delivering **business intelligence**. Proven **Point of Contact (POC)** for multiple projects with strong **cross-team collaboration**. Background in **multi-level technical support** and **incident management** using **ServiceNow**. Currently pursuing **Microsoft PL-300 certification**

Professional Work Experience

Data Engineer – ETL Developer | Permanent Role

Collabera Digital Inc., Manila, Philippines | Nov 2023 – Feb 2024

Designed, developed, and maintained scalable ETL pipelines supporting critical financial remittance systems, ensuring high data accuracy and operational efficiency for domestic and international transactions.

- Developed and optimized **SSIS packages** and **SQL Server Agent jobs** for automated extraction, transformation, cleansing, and loading of high-volume transaction data.
- Implemented **Slowly Changing Dimension (SCD) Type 2 and incremental loading** strategies to enhance data warehouse accuracy and reduce processing time.
- Performed thorough **data profiling and cleansing** to improve data quality and consistency across source systems.
- Collaborated with business analysts to translate complex financial rules into effective ETL workflows and ensured compliance with regulatory standards.
- Monitored ETL processes with error handling, logging, and validation to maintain system reliability and data integrity.

Associate Software Engineer – Packaged App Development Analyst | Permanent Role

Accenture Inc., Uptown Mall BGC Tower 2 Office, Philippines | Apr 2022 – Jul 2023

Delivered multi-level technical support and developed data integration solutions with strong emphasis on **Azure cloud services**, data warehousing, and BI reporting.

- Provided **L1 to L3 support**, handling service requests including **Active Directory access** and implementing **Row-Level Security (RLS)** in **SQL Server** and **SSAS** for secure data access.
- Developed, maintained, and enhanced **Power BI dashboards and reports** integrated with data warehouse sources for actionable business insights.
- Managed, monitored, and troubleshot **Azure Data Factory (ADF)** pipelines to ensure reliable ETL workflows and data integrity in the cloud environment.
- Performed **data profiling, cleansing, duplicate removal, and discrepancy resolution** to maintain high data quality across Azure SQL Data Warehouse and on-prem databases.
- Collaborated with internal teams via ServiceNow for incident management, access requests, and change control; served as **Point of Contact (POC) for 5+ enterprise projects**, coordinating with global stakeholders for requirement gathering, enhancements, and deployment.

Other Experience

Greenhouse Worker (Casual Role) | T&G Global., Tuakau, New Zealand | Jul 2024 – Present
Assisted in harvesting and plant maintenance, ensuring quality and supporting team productivity.

Web Development Intern | Bliimo Technologies Inc., Ortigas, Philippines | Feb 2019 – May 2019
Developed responsive web components using React.js, HTML, and CSS; collaborated on UI implementation.

Skills

ETL & Data Integration
SSIS, **Azure Data Factory (ADF)**, SQL Server Integration Services, SQL Server Agent
Incremental Load, Batch/Real-Time Processing, SCD Type 2, Data Mapping, Transformation, Merge Join, Error Handling, Logging

Databases & Querying
SQL Server, MySQL | T-SQL, PL/SQL, Stored Procedures, Views, Indexing, Joins, CTEs
Data Modeling: Star Schema, ERD, Normalization

Business Intelligence & Reporting
Power BI (DAX, Power Query, Custom Visuals), SSRS (Paginated Reports), SSAS (Tabular & Multidimensional), KPI Dashboards

Cloud & DevOps
Azure SQL, Blob Storage, Monitor | Azure DevOps, CI/CD, Git | SSMS, VS Code, ServiceNow

Programming & Scripting
SQL, C#, JavaScript, PHP, Java, C++, Visual Basic

Web Development
HTML5, CSS3, Bootstrap, jQuery, ASP.NET MVC, REST APIs

Support & Analysis
Application Support (L1–L3), Technical Support Analyst, **Data Analyst**, **RCA**, Incident/Problem Management, ServiceNow, SLA, Documentation, Knowledge Base

Soft Skills & Methods
Agile, Technical Documentation, Collaboration, Communication, Attention to Detail

---

Additional Projects

- Built full-stack apps with PHP & MySQL using XAMPP
- Developed Arduino, Java, and C++ academic systems (e.g., attendance/security)
- Currently reviewing for **Microsoft PL-300 Power BI Data Analyst certification**

Education

Bulacan State University | Bachelor of Science in Information Technology | Philippines | Jun 2014 – Jun 2019

Certification

Microsoft Certified: Azure Fundamentals (**AZ-900**)
